

MEDIA RELEASE

Reinstatement of MASwings flights frequencies will take place in stages

16 June 2020, Kota Kinabalu: Following the recent implementation of the new nationwide Recovery Movement Control Order (RMCO) by our Malaysian Government, MASwings is planning to reinstate its reduced frequencies and temporary suspended flights back into normal schedule as per the Public Services Obligation (PSO) Agreement over a few phases starting from 10 June 2020 throughout 27 MAR 2021.

At present, although the newly implemented RMCO is imposed with more relax conditions and guidelines on its standard operations procedure, the demand for air travel especially within Sabah and Sarawak have yet to show any significant growth hence the current MASwings flight schedule implemented since MCO will remain until the 30 June 2020.

Nevertheless, looking at the forward bookings in hand over the next six (06) months and in anticipation of greater passenger movement in due course as more businesses and tourism related industry will be in full operations gradually, MASwings has decided to reinstate its flights frequencies gradually over four (04) phases.

The planned flight frequencies reinstatement is detailed below:
